I'm attaching the papers and presentations from the event I spoke at yesterday. I'm sure there will be many topics of interest to the air program. I only got one question during my presentation on the U&O FIP, which I had mentioned is on the regulatory agenda and under development. Randy Dann from Davis, Graham, Stubbs asked if EPA was prepared to issue permits if there is a gap between the nonattainment designation and a FIP. I responded that we hope to minimize the gap to the greatest extent possible, but if there is one, yes we are.

K.C. Schefski
Regional Counsel
